 Primary Examiner  
 Art Unit: 2838

1. Claims 1-17 are allowed over the cited prior art.
2. The following is an examiner's statement of reasons for allowance: None of the cited prior art disclose or teach a synchronous control circuit of a flyback switching power supply connected with a power source ends and a detection end and has a synchronous input end, a control end. The synchronous input end is used for input of a synchronous signal. The control end is connected to the rectifying circuit for controlling the rectifying circuit to generate a uniform rectifying response period or a synchronous control circuit of a flyback switching power supply with a drive control circuit composed of a plurality of transistors to form a control input end and a control output end, the control input end being connected to the output end of a comparator and the control output end being connected to the gate of the FET to drive and control the FET for increasing or decreasing the rectifying response period.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Adolf Berhane whose telephone number is 571-272-2077. The examiner can normally be reached on Monday- Friday 8 AM to 6 PM.
